Python

Internship:

Pantech solutions

Online Mode

Machine Learning.

PROFESSIONAL EXPERIENCE

Software Engineer

Jul '22 - Present

NOVAC Technology Solutions

Mylapore,Ch-600004

Domain: C# And Dot net, SQL

Experience: 2 Years

Achievements: Received Star Of the Month Achievement Award (Jan 2023, Feb 2024)

Experience

Jul '23 - Present

Project Name: Shriram Transport Finance Limited

Summary: Experienced .NET developer with a focus on building robust lending modules. Skilled in designing and implementing loan origination systems, repayment schedules, and tracking mechanisms. Proficient in C#, ASP.NET, and SQL Server, with a deep understanding of financial concepts and regulations. Adept at collaborating with cross-functional teams to deliver high-quality, secure, and scalable lending solutions.

Role: Software Developer. Gather detailed requirements for each module, including specific features, integration points, and user roles. Design the database schema for each module, ensuring that it can store the necessary data and support the required functionality.

- Use C# and ASP.NET to develop the backend logic for each module. Implement features such as expense tracking and approval for the Expense module, settlement processing for the Settlement module, payment collection and reconciliation for the Collection module, and logistics management for the Logistics module.
- Develop user interfaces for each module using HTML, CSS, and JavaScript. Ensure that the interfaces are intuitive and user-friendly, providing easy access to the module's functionality.
- Integrate the modules with each other and with external systems as needed. Ensure that data flows smoothly between the modules and that they work together seamlessly.
- Perform thorough testing of each module to ensure that it meets the functional and performance requirements. Use unit testing frameworks to automate testing wherever possible.
- Deploy the modules to a production environment, ensuring that they are scalable and secure. Monitor the modules in production to identify and resolve any issues that arise. Provide ongoing maintenance and support for the modules, including bug fixes, updates, and user assistance.

TECHNICAL SKILLS
